About our company

Hi..

We, the Genius people are here to simplify your hot water demand in optimum expenses round O'clock 365 days.

We help you to find the modern technology to overcome the problem of shortage of hot water in rainy and winter season when the demand is at peak.

We help you to compare the heat pump technology with traditional solar water heaters as well as electric geysers

Why choose us?

We have highly skilled engineers with excellent technical knowledge and experience in using the latest technologies. We have built a large pool of knowledge that we apply to deliver solutions that meet client's needs, expectations and budget. By putting our clients at the heart of everything we do, we are proud that we are still supporting our very first business client.

Our products

PRIMA Residencial Heat Pump water heater

2nd Generation

**Available
capacities
80/120 LPH**

Long durable life
Low running cost
Low maintenance cost
Round O'Clock operation
Reduced carbon foot print

Silent operation
Smallest foot print for installation
Best suitable for tinny families up to 6 members

Our products

NEXA

Commercial Split Heat Pump water heater

**Available
capacities
120/200/300
LPH**

Long durable life

Low running cost

Low maintenance cost

Round O'Clock operation

Reduced carbon foot print

Silent operation

Smallest foot print for installation

Best suitable for Small properties up to 10 rooms

Our products

ECO-i

**Industrial Heat Pump
water heater**

**Available
capacities
400/500/1000
LPH**

Long durable life

Energy Efficient Design

Low maintenance cost

Round O'Clock operation

Reduced carbon foot print

Available in customized range up to +80 deg c

**Best suitable for mega properties up to 100
rooms & food- pharma- processing- chemical-
engineering industry etc**

Our products

SPRING

**Swimming pool Heat
Pump water heater**

**Best Suitable for
pool size**

1000 to 50000 Ltr

**Titanium heat exchanger- High corrosion resistance
High pressure protection function
Low maintenance cost
Defrost automatically
Can heat and cool the pool**

Silent operation

Smallest foot print for installation

**Best suitable for any size swimming pool, jcuzzi
& spa pool**

Benefits

01

24 x 365 Functioning

Compared to Solar Heaters, Heat pumps operates in all weather conditions.

02

Energy Efficient

Heat pumps are 300% more efficient than boilers/ geysers

03

User friendly

Easy to maintenance
Can generate Hot / Cold water/air on demand
more safe than any other form

Best Suitable for

Household
bathrooms

Healthcare

Industries

Hotel & Lodge
